AGRICULTURE DIVISION

MADE TO FIT MOST MAKES AND MODELS

A008FL-0315

Now you can quick-roll your tarp while standing in one spot – no need to keep shifting around for a better angle. Cable-Lok™ provides smooth tarp operation from fully open to completely closed while spring-loaded tension keeps the tarp tight.

The Cable-Lok™ system covers boxes up to 24 feet long and 12 feet wide. It has an extruded tarp attachment slot running the full length of the aluminum roll tube. Once inserted, a safety rod anchors the tarp in place for easier removal, if necessary. Tension is distributed evenly along the fabric – no binding, overlap or friction.

Our easy-off tarp stops let you remove the tarp with minimal tools in the shortest amount of time. An upgrade to 6-inch easy-off stops allows you to store the tarp off to the side of the top rail.

Key Features: No-Weld Install, Easy-Off Tarp Stops, Galvanized Bows/Brackets, Galvanized End Caps, 1" Ridge Strap, Galvanized Telescoping/Indexing Crank, Telescoping Nylon Crank Retainer, Spool w/Galvanized Cable and Zinc-Plated Ratchets, Aluminum Roll Tube w/Channeled Tarp Attachment, Galvanized Fixed Tube, 18-Oz. Vinyl Tarp.
