ROLL TARPS

Affordable Way to Comply with Stricter Tarp Laws

Description

Keep dumpsters free of unauthorized garbage! These cover-containment systems let you put more in the container and still roll it closed, quickly and easily. Available in Premium Belt 'n Ratchet or Original Shur-Lok® roll tarp styles.

To help our customers comply with increasingly stringent tarp law regulations, we offer our PBR and Shur-Lok® systems. The tarp stays with the container, on or off the truck, so it can't be lost or left behind. It increases the capacity of your container, especially the PBR system which lets you heap loads. As an interesting side benefit, these systems have been found to reduce workman's compensation claims because no one needs to crawl on top of the trailer.

Shur-Co® roll-off container systems meet or exceed all DOT regulations. They protect container contents from the elements, reduce the chance of illegal dumping, improve fuel economy during transport and can be made to fit any application.

Distribution and Service on Six Continents!

Features

Latchplate In the closed position the tarp and roll-tube conveniently roll underneath the latchplate to ensure a secure and uniform tarp fit over the entire load. The latchplate runs the entire length of the box and comes in galvanized steel or aluminum for a sharper appearance.

Hold-Downs The 2" hold-downs secure the tarp tube for uniform tension across the tarp and make tension adjustments quick and easy. These can be ordered as strap tie-downs or as ratchets with optional quick-release straps.

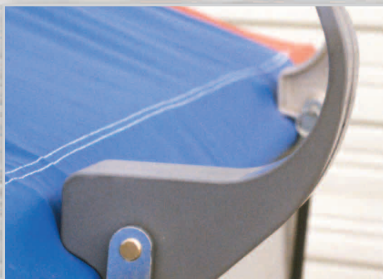

Options

Tarp Stops

3" Offset Standard Tarp Stop Configured to store the tarp off to the side of the top rail for additional loading space. Attaches to the side of the container. Includes rubber tops to protect the tarp from sharp edges.

Tarp Stops

Vinyl Tarp Made of a solid vinyl-coated fabric for a more durable and longer tarp life. All seams are heat-welded to provide an added moisture barrier. Built in UV inhibitor resist fading. Available in 18- and 22-oz. material.

6" Offset Easy-Off Tarp Stop Designed for maximum loading space. The self-cleaning design prevents buildup around the fixed tube. Permits fast, easy tarp removal with minimum tools.

Mesh Tarp Made of a durable lightweight fabric this options offers good air circulation in addition to secure containment. Seams are heat-welded for added durability.

6" Offset Flexible Easy-Off Tarp Stop

Bends even in subzero cold. Impact and abrasion resistant with embedded safety plates for added durability. Designed for maximum loading space.

Multicolored Tarp All the benefits of the solid vinyl tarp option. Create more visibility and brand recognition with a custom tarp. Acts as a deterrent to theft.
