

Why buy the 4500 Series HD and ProTrap® at the same time?

Equipping your grain trailer with the 4500 Series HD Electric Tarp and ProTrap® Electric Hopper Door Opener will make loading and unloading faster, easier and safer. And while adding these options one at a time may seem like a careful budgeting move, we think that you'll find the combination purchase to be the smarter strategy in the long run. The two systems actually cost less as a kit when ordered together and need less wiring than if installed separately.

Our SMART-touch remotes, the SMART2™ (with its industry-leading two-way communication) and the popular and easy-to-use SMART3™, can be programmed to operate your tarp and hopper traps, electric gate and hoist, auger drive, LiteALL™ LED work lights and more.

For additional information about Shur-Co® products, give us a call at **1.800.474.8756** Monday through Friday, 8:00 a.m. to 5:00 p.m. Central Time. Our friendly and knowledgeable Customer Service Representatives will be happy to answer all of your questions. Or log on to our website at www.shurco.com.

Our latest SMART3™ remote offers complete control as well as Express Mode capabilities!

Above: The 4500 Series HD has been designed with spiral spring returns, front and back, a flexible elbow and heavy-duty front and rear torsion arms. Its American-made motor has an all-metal casing and a super-reliable magnetic brake.

Left: The ProTrap® lets the operator open and close the traps while standing back, out of the dust.
