

# ROLL TARPS

## FOR ROLL-OFF CONTAINERS

SC011FL-0318

## FEATURES AND BENEFITS

- Easy Off Aluminum Tarp Stop
- Solid Vinyl Tarp with Flaps to Fully Seal Container
- Bow Supports Included to Shed Water When Tarp is Closed
- Fits Containers Lengths from 12' to 26'
- Removable Crank with Box Mounted Storage Retainers

Keep dumpsters free of unauthorized garbage! These cover-containment systems let you put more in the container and still roll it closed, quickly and easily. Available in Premium Belt 'n Ratchet or Original Shur-Lok® roll tarp styles.

To help our customers comply with increasingly stringent tarp law regulations, we offer our PBR and Shur-Lok® systems. The tarp stays with the container, on or off the truck, so it can't be lost or left behind. It increases the capacity of your container, especially the PBR system which lets you heap loads. As an interesting side benefit, these systems have been found to reduce workman's compensation claims because no one needs to crawl on top of the trailer.

Shur-Co® roll-off container systems meet or exceed all DOT regulations. They protect container contents from the elements, reduce the chance of illegal dumping, improve fuel economy during transport and can be made to fit any application.

# THE SHUR-CO® DIFFERENCE

## LATCHPLATE

In the closed position the tarp and roll-tube conveniently roll underneath the latchplate to ensure a secure and uniform tarp fit over the entire load. The latchplate runs the entire length of the box and comes in galvanized steel or aluminum for a sharper appearance.

## HOLD-DOWNS

The 2" hold-downs secure the tarp tube for uniform tension across the tarp and make tension adjustments quick and easy. These can be ordered as strap tie-downs or as ratchets with optional quick-release straps.

## 3" OFFSET STANDARD TARP STOP

Configured to store the tarp off to the side of the top rail for additional loading space. Attaches to the side of the container. Includes rubber tops to protect the tarp from sharp edges.

## 6" OFFSET EASY-OFF TARP STOP

Designed for maximum loading space. The self-cleaning design prevents buildup around the fixed tube. Permits fast, easy tarp removal with minimum tools.

## 6" OFFSET FLEXIBLE EASY-OFF TARP STOP

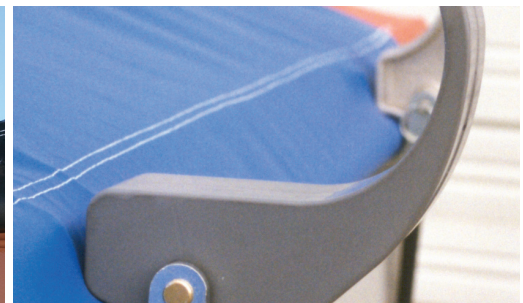

Bends even in subzero cold. Impact and abrasion resistant with embedded safety plates for added durability. Designed for maximum loading space.

## VINYL TARP

Made of a solid vinyl-coated fabric for a more durable and longer tarp life. All seams are heat-welded to provide an added moisture barrier. Built in UV inhibitor resist fading. Available in 18- and 22-oz. material.

## MESH TARP

Made of a durable lightweight fabric this options offers good air circulation in addition to secure containment. Seams are heat-welded for added durability.
