

What are the benefits of the SMART3™ remote and how do I convert my SMART1+™ over?

SMART3™ brings you the best of the SMART1+™ and adds additional features most requested by our customers, many from the SMART2™. As a result, in the SMART3™, we have engineered the simplest, best-performing SMART remote that Shur-Co® has to offer.

Same features as SMART1+™:

- 5-Channel Operation – Switch between Apps w/Select Button (Active Channel will be Lit Up)
- Flip-Style Lid Prevents Accidental Operation, Shuts Off after 3 Minutes of Inactivity to Save Battery Life
- Allows Turn-Off of Unused Channels

Added features:

- Uses 2 AAA Batteries for Longer Battery Life
- Configures to Momentary Mode (Press-and-Hold) or Express Mode (Auto Press-and-Release)
- Smaller in Size but w/Same Range as SMART2™
- Provides Auto Turn-Off if Stall Condition is Detected
- Bluetooth Capabilities Let You Update and Customize Devices w/Smartphone or Tablet
- Easily Pairs w/External Receiver Buttons – No Need to Remove Receiver Cover

Top: Flip-style lid offers sturdy protection, plus automatic shut-off after 3 minutes of inactivity. Inset: The same compact size as the SMART1+™ but with range equivalent to the SMART2™.

SMART3™ App Download

Update and customize devices using your Smartphone or tablet with Shur-Co's SMART app, available by accessing the QR code at the far left. The code to the right shows how to use the app once you've downloaded it.
