- Solar Panel [26-3/4" x 16-3/4"]
- Sealed 12V Gel Cell Battery
- Aluminum Battery Box [11" x 9-1/4" x 5-3/4"]
- Mounting Hardware

Now you can power your tarping system without wiring your truck! Lightweight but powerful solar panel converts sunshine to recharge its battery. Use it wherever an electric tarping system can be installed. No wiring to connect to the truck cab! This compact 30-watt solar panel, just 3/4-inch deep, is the ideal choice for grain trailers, grain carts, dump bodies and more. The battery is rated for over 5,000 cycles and can be safely installed vertically or horizontally. Its high-efficiency silicon cells are protected by a weatherproof plastic layer. Installation is quick and easy, and you can choose from available options like our wireless remotes or trailer- or truck-mounted rocker switch for additional operator convenience.
